

Subject Selection – Year 10 for 2018

Student Name: _____
(first) (last)

It is our desire to offer as many courses of study as possible. The availability of staff, teaching resources and most importantly the number of students enrolling in a course will determine if a course of study is provided. Just because we desire to offer a course, or students desire to complete a course, does not guarantee the course will be offered.

Subject Preferences – number in order of preference. You must number every box.
