**Music Tuition**

*Why Learn an Instrument?*

Learning an instrument has benefits for students in other areas of learning. It provides a creative outlet for young people. God designed us to be creative and express creativity in different ways. Learning an instrument also assists students to be disciplined with their time.

*MUSIC OPPORTUNITIES AT STAINES MEMORIAL*

At our College, each class from Years Prep—9 are provided regular class music lessons. In addition, we facilitate small group or individual lessons to learn an instrument.

The College encourages students to perform their work in a range of settings eg. assemblies or special events. We work closely with the instructors to encourage and facilitate this.

---

**When do lessons occur?**

Music tuition is offered on a weekly basis for students from Yr 2—Yr 12 during College hours. Students come out of class at a set time of the week to meet the instructor.

**The Instructors**

Lessons are conducted through Music Boutique who are quality Christian instructors and provide personalised lessons using the instrument of choice of the student and family.

This arrangement saves families the afternoon or morning trips to private places for tuition. In this scenario the instructor comes to the College.

The arrangement is beneficial to families and the instructors, one evidence being the cost of lessons and another being the convenience.

Your children will be taught by caring music professionals who will provide you regular feedback.

---

**Instrumental lessons on Offer**
