

HOURS OF SUPERVISION POLICY

General Hours of Supervision

The college provides supervision for students between **8:00am and 3:30pm**. Students should not be on college grounds outside of these times.

If students arrive at the college **before 8:00am** they must wait in the T Zone (outside Administration) until 8:00am. They should not move around the college unless they are involved in a before-school event organised by the College.

If students are still at the college after **3:15pm** they must wait in the T Zone (outside Administration). They should not move around the college. Students who are regularly picked up after **3:30pm** may have conditions placed on their enrolment.

After School Events

If students attend an after-school event organised by the college (such as sport training, musical practices, homework club or after-school detentions) they must be collected **at 4:15pm**, unless otherwise stated in a letter from the college.

Siblings of students involved in an after-school event must stay with their siblings at the event. They should not move around the college or interrupt the event.

Families who do not collect their children at **4:15pm**, or whose children do not follow these expectations may be unable to continue to participate in these events.

Saturday Sport

It is our preference that families come along to support and encourage their children playing sport. If you intend to pick-up your children after the game, we ask that you arrive before the end of the game.

Families who do not collect their children within **10 minutes** of a game ending may not be able to continue to participate in our Saturday sport program.
