

Year 7 Laptop Program

From 2024, all students in Year 7 will be provided with a college laptop to use for educational purposes.

At Staines Memorial College, we are committed to maintaining an affordable, high-quality Christian education, and so the provision of these devices will not be an additional cost to families.

Online learning has become part of our student's daily learning experiences, and the provision of these devices to students in Year 7 will help provide a standard learning environment for all students. Personal devices will not be permitted for students in Year 7.

In 2024, Year 7 students will receive a device with the following specifications:

- Pentium N200
- 8GB RAM
- 256 SDD

These devices will remain the property of the College and will come with a three-year warranty, and accidental damage cover. Please note that intentional or repeated damage to these devices may result in families being charged for repairs or replacements.

Devices will also come with screen monitoring software that will be active during school hours, when your child is on site at the College.

These devices will be distributed to students at the start of the school year, along with conditions of use.

Kind regards,

Nick Makin
Principal
